Technical data

LED adapter for L5.5K lampholders

Type	LA5,5
Series	Accessories
Rubric	Accessories for contact blocks
Approvals	CE

→ General data

Operating temperature	-20 °C ... 60 °C
Colour	White
Storage temperature	-25 °C ... 80 °C
Material	PA

→ General note

- Adapter for 3 mm or 5 mm LEDs for use with contact elements with L5.5K lamp socket. The connections of the LED are inserted into the grooves of the adapter and shaped accordingly so that the combination of both parts can be inserted precisely into the lamp socket.
- Pre-resistor must be provided separately.
